## MAY IS FOOT HEALTH MONTH

During May the [Canadian Federation of Podiatric Medicine](#) wants everyone to think feet! Foot Health Month calls attention to the importance of proper foot and ankle care, and is a time for all Canadians to stop and take a good look at their feet.

According to statistics, 4 of every 5 Canadians will experienced some foot ailment in their lifetime. "We encourage people to inspect their feet for possible [warning signs of diabetes](#) or other minor injuries that can quickly develop into a serious medical problem." says Tony Abbott D.Ch. of the [Abbott Foot & Ankle Clinic](#) and [The Heel Pain Centre](#). The health of your feet is a reflection of the wellbeing of your overall body.

### European Vacation

The Abbott family has just returned from their 19-day European adventure. Tony, Jan and the three girls had a wonderful journey that began in Florence, Italy. The first week, they explored Florence and made day trips to a few of the popular cities nearby. They then flew to Brussels, where they stayed with family and explored the many highlights around Brussels. Day trips from there included a trip to France, and The Netherlands. The last leg of their journey was a flight back to Rome, where they had several busy days viewing the main attractions around Rome. The weather during the trip was great. The sun shone, and the spring flowers were all in full bloom. The great weather was conducive to lots of walking including climbing several towers which provided fantastic views. The extra incentive of a trip to the "Gelateria" (ice cream shop), or fresh made waffles kept the girls in great spirits, and excited to see more.

### Collingwood MS Walk Update

The MS Walk in Collingwood took place on Sunday May 17th this year with 195 walkers. Team Abbott's Happy Feet were part of this annual walk that raised 4.6 million dollars across Canada. Despite the snowy conditions the walk was enjoyed by all for this wonderful cause.
